XI'AN FUNCTION MATERIAL GROUP CO., LTD Safety Data Sheet Lead (II) molybdate

1. Product and Company Identification

Lead (II) molybdate PbMoO₄ Scientific research and development

XI'AN FUNCTION MATERIAL GROUP CO., LTD No. 69, Gazelle Valley, High-Tech Zone XIAN SHAANXI 710077 CHINA +86-29-88993870/+86-13519132051

2. Hazards Identification		
Signal Word:	Danger	
Hazard Statements:	H302+H332: Harmful if swallowed or if inhaled. H360: May damage fertility or the unborn child. H373: May cause damage to organs through prolonged or repeated exposure. H410: Very toxic to aquatic life with long lasting effects	
Precautionary Statements:	 P202: Do not handle until all safety precautions have been read and understood. P260 Do not breathe dust/ fume/ gas/ mist/ vapors/ spray. P264 Wash skin thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P271 Use only outdoors or in a well-ventilated area. P273 Avoid release to the environment. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P301 + P312 + P330 IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. Rinse mouth. P304 + P340 + P312 IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor if you feel unwell. P308 + P313 IF exposed or concerned: Get medical advice/ attention. P301 Collect spillage. P405: Store locked up P501: Dispose of contents/container in accordance with local/regional/national/international regulations 	
HMIS Health Ratings (0-4): Health: Flammability: Physical:	2 0 0	

	3. Composition
Chemical Family: Additional Names:	Nonmetal Lead molybdenum oxide
Lead (II) molybdate (PbMoO ₄):	
Percentage:	100 wt%
CAS #:	10190-55-3
EC #:	233-459-2
	4. First Aid Procedures
General Treatment:	Seek medical attention if symptoms persist.
Special Treatment:	None
Important Symptoms:	None
Inhalation:	Remove victim to fresh air. Supply oxygen if breathing is difficult.
T	Keep patient warm. Seek immediate medical attention.
Ingestion:	Seek immediate medical attention.
Skin:	Immediately wash affected area with mild soap and water. Remove any
Europ	Elush aves with water, blinking often for several minutes. Remove
Lyes.	contact lanses if present and easy to do. Continue rinsing. Seek
	immediate medical attention
	5. Firefighting Measures
Flammability:	Non-flammable
Extinguishing Media:	No special restrictions – use suitable extinguishing agent for surrounding material and type of fire
Spec Fire Fighting Procedure:	Ne full-face self-contained breathing apparatus with full protective
Spee. The Fighting Floeedure.	clothing to prevent contact with skin and eyes. See section 10 for
	decomposition products.
	6 Accidental Paleasa Maasuras
	0. Accidental Release Measures
If Material Is Released/Spilled:	Wear appropriate respiratory and protective equipment specified in
	special protection information. Keep unprotected persons away. Isolate
	spill area and provide ventilation. Vacuum up spill using a high
	efficiency particulate absolute (HEPA) air filter and place in a closed
	container for disposal. Take care not to raise dust.
Environmental Precautions:	Isolate runoff to prevent environmental pollution.
	7. Handling and Storage
Handling Conditions:	Avoid contact with skin and eyes. Wash thoroughly after handling.
Storage Conditions:	Store in a cool dry place in a tightly sealed container. Store apart from
XX7 - 1 //X	materials and conditions listed in section 10.
work/Hygienic Maintenance:	Do not use tobacco or food in work area. Wash thoroughly before
	eating and smoking. Do not blow dust off clothing or skin with
Vantilation	compressed air.
venutation:	threshold limit

Permissible Exposure Limits: 0.05 mg/m³ as Pb, long-term value Threshold Limit Value: 0.05 mg/m³ as Pb, long-term value Special Equipment: Properly operating chemical fume hood designed for hazardo chemicals and having an average face velocity of at least 100 minute Respiratory Protection: Dust Respirator Protective Gloves: Rubber gloves Eye Protection: Safety glasses or goggles Body Protection: Protective work clothing. Wear close-toed shoes and long sleeves/pants. Color White Form: Powder Odor: Odorless Water Solubility: Insoluble Boiling Point: N/A Plash Mite: N/A Point: N/A Plash Point: N/A Molecular weight: 367.14 g/mol 10. Reactivity Stability: Stability: Reacts With: Strong oxidraing agents, strong acids None Nate oxide turne, lead oxides, molybdenum oxides	8. Exposure Controls and Personal Protection		
Threshold Limit Value: 0.05 mg/m ³ as Pb, long-term value Special Equipment: Properly operating chemical fume hood designed for hazardor chemicals and having an average face velocity of at least 100 minute Respiratory Protection: Dust Respirator Protective Gloves: Rubber gloves Eye Protection: Safety glasses or goggles Body Protection: Protective work clothing. Wear close-toed shoes and long sleeves/pants. 9. Potential Health Effects:

Eyes:
Skin:
Ingestion:
Inhalation:
Chronic:

Signs & Symptoms: Aggravated Medical Conditions:

Median Lethal Dose:

Carcinogen:

May cause irritation May cause irritation Harmful if swallowed. Harmful if inhaled. May damage fertility or the unborn child. May cause damage to the reproductive system, the blood, the brain and the endocrine system through prolonged or repeated exposure. Route of exposure: oral, inhalation. Lead salts have been reported to cross the placenta and to induce embryo- and feto- mortality. They also have teratogenic effect in some animal species. No teratogenic effects have been reported with exposure to organometallic lead compounds. Adverse effects of lead on human reproduction, embryonic and fetal development, and postnatal (e.g., mental) development have been reported. Excessive exposure can affect blood, nervous, and digestive systems. The synthesis of hemoglobin is inhibited and results in anemia. If left untreated, neuromuscular dysfunction, possible paralysis, and encephalopathy can result. Additional symptoms of overexposure include: joint and muscle

pain, weakness of the extensor muscles (frequently the hand and wrist), headache, dizziness, abdominal pain, diarrhea, constipation, nausea, vomiting, blue line on the gums, insomnia, and metallic taste. High body levels produce increased cerebrospinal pressure, brain damage, and stupor leading to coma and often death.

N/A N/A

N/A

IARC: 2A - Group 2A: Probably carcinogenic to humans (Lead molybdate)

NTP: RAHC - Reasonably anticipated to be a human carcinogen. The reference note has been added by TD based on the background information of the NTP. (Lead molybdate)

OSHA: OSHA specifically regulated carcinogen (Lead molybdate) EPA-B2: Probable human carcinogen, sufficient evidence from animal studies; inadequate evidence or no data from epidemiologic studies. ACGIH A3: Animal carcinogen: Agent is carcinogenic in experimental animals at a relatively high dose, by route(s) of administration, at site(s) of histologic type(s) or by mechanism(s) not considered relevant to worker exposure. Available epidemiologic studies do not confirm an increased risk of cancer in exposed humans. Available evidence suggests that the agent is not likely to cause cancer in humans except under uncommon or unlikely routes or levels of exposure

12. Ecological Information

Aquatic Toxicity:	Very toxic for aquatic organisms.
Persistent Bioaccumulation Toxicity:	N/A
Very Persistent, Very Bioaccumulative:	N/A
Notes:	Do not allow product to reach ground water, water course or sewage system, even in small quantities.
	Do not allow material to be released to the environment without proper governmental permits.
	Danger to drinking water if even extremely small quantities leak into
	the ground.
	Also poisonous for fish and plankton in water bodies.
	May cause long lasting harmful effects to aquatic life.

Avoid transfer into the environment Very toxic for aquatic organisms.

13. Disposal Considerations Dispose of in accordance with local, state, national, and international regulations. 14. Transportation Data Hazardous: Hazardous as powder only. Hazard Class: 9 Miscellaneous dangerous substances and articles Packing Group: III UN Number: UN3077 Proper Shipping Name: Environmentally hazardous substance, solid, n.o.s. (Lead (II) molybdate) 15. Regulatory Information Sec 302 Extremely Hazardous: No Sec 304 Reportable Quantities: N/A Sec 313 Toxic Chemicals: Yes 16. Other Information This safety data sheet should be used in conjunction with technical sheets. It does not replace them. The information

This safety data sheet should be used in conjunction with fechnical sheets. It does not replace them. The information given is based on our knowledge of this product, at the time of publication. It is given in good faith. The attention of the user is drawn to the possible risks incurred by using the product for any other purpose other than that for which it was intended. This does not in any way excuse the user from knowing and applying all the regulations governing his activity. It is the sole responsibility of the user to take all precautions required in handling the product. The aim of the mandatory regulations mentioned is to help the user to fulfill his obligations regarding the use of hazardous products.
